Wright says, between the fuel savings and lower maintenance costs, its hybrid system pays for itself.

If you want to emphasize the portability of containers and their role as a distribution mechanism, you might say that they are like a platform.

By nature, however, turkeys are "cursorial" (running) birds and they prefer to move about and escape on foot except when startled or severely chased.

Eight of its patients who may have been exposed, and hospitals in other states are working to do the best.

Are priced at GBP65 and a fashion version for women, pictured, costs GBP55.
